1. Purpose and scope

The purpose of this procedure is to determine, collect, and analyze the date generated from all processes in our company using various quality techniques to identify progress against the target for quality & management performance and to continuously improve it.

2. Apply scope

Applied to all processes

3. Definition of terms

3.1 Key performance indicator (KPI)

A key performance indicator is a quantitative indicator of the progress of a team or organization against important business objectives.

3.2 Customer satisfaction

A state in which customer demands are being met for tangible and intangible products purchased by customers.

4. Responsibility and authority

5.1 CEO

1) CEO is responsible for maintaining quality management system through continuous improvement
2) The CEO has the responsibility and authority to continuously maintain and support the improvement results.

5.2 CQO

1) The CQO has the responsibility and authority to carry out tasks by being delegated the responsibility and authority of the CEO.
2) The CQO should report improvement implementation results to the CEO and follow-up management of several indicators.

5.3 The relevant department

1) The head of all department should manage & monitor key performance indicators continuously, and, they should maintain monitoring & improved results.
